

Posiflex Publishes the Combat Mini Printer Model Aura-8000

TAIPEI, TAIWAN, Sep. 30th, 2008 –

Posiflex publishes the brand new design of Aura-8000 Mini. Printer after the last Aura-7000 series. Aura-8000-series will replace Aura-7000-series with the features improvements as below :

- 1). It is specially adapted in Windows environment to improve the graphic printing speed up to 115200 bps via RS232, and also improves the printing speed from 180mm/sec to 220mm/sec.,
- 2). With its streamline design gets lighter weight and stays as compactable to thermal printing.
- 3). Aura-8000 can support the upgrade to become either LAN port or USB port printer by plugging in the internal daughter board upgraded kits.
- 4). In order to prevent from unexpected damages in the rough working environment, Aura-8000 packaged with a top cover for dustproof and waterproof function as an option for customers' choice.
- 5). Aura-8000 will be shipped with the 2-feet long cable by customer's shipment configuration choice from Serial/Parallel/USB interface port, 6-feet as option
- 6). And the most important, despite all the better features of Aura-8000 comparing to Aura-7000, still Aura-8000 will keep the same price offer as Aura-7000 in the same configuration.

Water /Dust proof cover
